

FIR CENTER SEMINAR

Title: Hybrid surface-radiating modes in a double periodic grating and their application for THz Cherenkov oscillators.

Speaker: Dr. Eduard Khutoryan

(Senior Researcher of Diffraction Theory and Diffraction Electronics Department of Institute for Radio Physics and Electronics of National Academy of Science of Ukraine and Visiting Associate Professor of FIR UF)

Date: 13:30 - 14:30, Nov. 19th (Tue), 2019

Place: Colloquium room, 5F, FIR UF

Organizer: FIR UF

Host: Y. Tatematsu
Phone: 0776-27-8517
(Ext. 2966)
